

## WESTERLY

Thieves broke in to Westerly public library sometime during Saturday night or Sunday morning and after ransacking the building, escaped with a substantial sum of money which they found in a drawer in the circulation department. The break was discovered Monday morning by the janitor, James Kennedy, who was just returning to his duties after a vacation. He found the specimens of old coins, that are hung in the reading room, scattered about the floor and upon investigation discovered that a window had been broken in the east wing of the building. After breaking the pane the thieves proceeded to unlatch the window and crawled into the reference room. From here they reached the main hallway by climbing over the transom, the door being locked. After ransacking the reading room and the children's department on the second floor, the money drawer of the circulation department was opened, and the money and cash books taken, so that it was impossible to learn the exact amount secured. An attempt was also made to force the door of the librarian's private office, but the door was too stout and the thieves were foiled. The matter was reported to the police Monday. It is thought that the robbers were the same gang that broke into the rectory of the Church to the immediate Conception a week ago.

A cigarette thrown from an office on the second floor of the Sugar block on High street, set the awning of the Sugar block on fire Monday afternoon about 5 o'clock, causing excitement on the main street, when the blaze was discovered. The fire was soon extinguished by pails of water brought from the drug store.

## STONINGTON

During the heavy wind storm, one of the 24 cannons on Cannon square was blown over. The oak tree which broke off on the right side of the carriage. The spokes and axle will have to be replaced but the hub and rim can be used again. Some years ago the both cannons were supported under the arch with a granite post, but when the 1814 celebration was held, in August, these cannons were removed and one of the guns was used in the big parade. The gun was drawn by four horses. For more than 100 years they have been exposed to the weather and they are highly prized by the people here for the work they did in 1814 against the British and in command of Commodore Thomas Hare, Hare's will be made this week and the 100th anniversary will be held in its familiar native town.

## TEA IN CHINA

Indications are that the Chinese Government intends to make every effort to encourage the tea industry. In that country and to increase China's tea trade with foreign countries, and the Peking cabinet recently decided to establish a tea bureau under the ministry of agriculture and commerce. It is stated that the tea industry of China is not keeping pace with the world's increasing consumption of tea, and while China is still holding its trade in the finer qualities India and Ceylon have practically captured the market from China as to the common black teas.—Exchange.

## Stomach on Strike 20 Years

Eatonic Settled It!

"Eatonic is wonderful," says C. W. Burton. "I had been a sufferer from stomach trouble for 20 years and now I am well."

Eatonic gets right after the cause of stomach troubles by taking up and carrying out the acidity and gases, and of course, when the cause is removed, the sufferer gets well. If you have sourness, belching, indigestion, food repeating or any other stomach trouble, take Eatonic tablets after each meal and find relief. Big box costs only a trifle with your druggist's guarantee.

## No money accepted

The 10-Day Tube of Pepsodent is free. We even pay the postage. This is simply to urge that you test it. See for yourself what it does. Decide by the clear results.

Just send the coupon, then watch the benefits you get.

## Men see the results very quickly

Smokers' teeth are often particularly discolored. The film absorbs the stains. The results of film removal are usually quick and conspicuous.

Most children suffer from these film attacks. Few reach the age of 15 with sound teeth. Dentists advise that Pepsodent be used twice daily from the time the first tooth appears. No ordinary tooth paste offers anywhere near such protection.

## Ten days will tell

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

Judge by what you see and feel. You can easily decide then between the old ways and the new. Cut out the coupon now.

## "Your Pretty Teeth"

What have you done to them?"

There is a new way of teeth cleaning—a way which fights film. To millions of people it has brought whiter, prettier teeth. Also safer teeth and cleaner.

You see the results in every circle—see them in glistening teeth.

This is to urge that you try this method. Ask for a ten-day test. Then mark the change which you see and your friends see.

## It combats the film

Most teeth are clouded more or less by film. The film is viscous. You can feel it with your tongue. But it clings to teeth, enters crevices and stays. And it often forms the basis of fixed coats.

The ordinary tooth paste does not end film. The tooth brush has left much of it intact. The film absorbs stains, making the teeth look dingy. Thus millions of teeth have lost their natural luster.

## How film ruins teeth

Film does more than mar the beauty. It is now regarded as the cause of most tooth troubles.

Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal. These troubles have been constantly increasing. So dental science has long been seeking ways to fight that film.

## A daily combatant

Two effective methods have now been found to daily combat that film. Able authorities

have amply proved them. Millions now employ them. And leading dentists everywhere are helping to spread their use.

The methods are combined in Pepsodent, a new-day dentifrice. The results are quickly seen and felt, so they cannot be disputed. That is the tooth paste we urge you to try. And we send a test tube free.

## Also aids Nature

Nature places in the mouth great teeth-protecting agents. But with modern diet, rich in starch, those forces need constant stimulation. Pepsodent supplies that stimulation. This is in keeping with the views of dental authorities.

It multiplies the salivary flow. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise cling and form acids.

It multiplies the alkalinity of the saliva. That is Nature's agent for neutralizing acids which cause tooth decay.

Each use of Pepsodent increases these forces, and the excess remains for some time. These effects alone, in dental opinion, mean a new era in tooth protection.

## No soap—no chalk

Soap and chalk are omitted from Pepsodent, to accord with modern dental requirements. No tooth paste which contains them can bring Pepsodent effects.

Pepsodent is the scientific tooth paste—the new-day method of teeth cleaning. Authorities say that it should supplant the methods which are wrong.

The reasons are told in a book we send. The 10-Day Tube reveals the effects. You will know what is best in a week.
